

# Ali Saghir | Full-Stack Web Developer

Beirut, Lebanon | +961 70967834 | [alisaghir543@gmail.com](mailto:alisaghir543@gmail.com) | [LinkedIn](#) | [Github](#)

## PROFILE

MERN Stack Developer with a Strong Focus on Full-Stack JavaScript Development, Specializing in MongoDB, MySQL, Express.js, React.js, Node.js, TypeScript, Redux, Firebase, and Appwrite with a proven track record in Building and Maintaining Web Applications.

## EXPERIENCE

**Full Stack Web Developer, Codi Tech** (August 2023 – February 2024)

- Used various Backend technologies including Node.js, Express.js, MongoDB, Mongoose, MySQL, Sequelize,, Postman API, REST APIs, API Development, AppWrite, FireBase, TypeScript.
- Developed the Frontend of several projects using various libraries and frameworks such as HTML5, Cascading Style Sheets, Bootstrap, Tailwind Css, JavaScript, React.js, TypeScript, Redux.
- Worked on administering and maintaining the server hardware and software using MERN Stack and Linux.
- Employed the Agile methodology of project management to plan, organize, and optimize workflow, ensuring successful project completion and client satisfaction.

## PROJECTS

**Workout Buddy** | *MongoDB, Node.js, Express, Mongoose, React.js,*

Workout Buddy is a simple website where users can register, log in, and manage their workouts.

- User registration and login: Users can create an account and log in to access their workout plans.
- Workout management: Users can add, remove, and edit workouts in their account.

**Silent Hikers** | *MongoDB, Node.js, Express, Mongoose, React.js*

The Silent Hikers website is a dynamic platform for a hiking community.

- User registration: Users can create an account to access the website's features.
- Event displays: The website displays a list of upcoming hikes for users to view.
- Reservations: Users can reserve a spot for an upcoming hike.
- Photo uploads: Users can upload photos of the hikes they have participated in.

**We Rise** | *MySQL, Node.js, Express, Sequelize, React.js, Bootstrap, Socket.IO*

We Rise is a crowdfunding platform designed to collect donations and create campaigns.

- User registration: Users must register to create a campaign or make a donation.
- Campaign creation: Registered users can create their own campaigns.
- Donation: Registered users can donate to existing campaigns.
- Real-time notifications: Implemented using Socket.IO to notify users of updates and activities.

## **Rayn-Look** | *MongoDb, Node.js, Express, Mongoose, React.js, Bootstrap, TypeScript, Redux*

Rayn-look operates as an E-commerce shop offering a range of contact lenses globally.

- **Product Listing:** Display a wide range of contact lenses available for purchase, categorized by type, and prescription.
- **Shopping Cart:** Allow users to add desired products to their cart for easy checkout.
- **Customer Support:** Provide a dedicated section for users to contact customer support for inquiries, assistance, or feedback.
- **Responsive Design:** Ensure the website is optimized for various devices, providing a seamless browsing and shopping experience.
- **Online Ordering:** Enable users to place orders directly through the website, selecting their desired contact lenses, specifying quantity, and providing shipping and payment information.
- **Product Details Page:** Provide a dedicated page for each contact lens product, showcasing detailed information such as type, prescription details, available colors, pricing, and specifications.

## **CodeTalk** | *AppWrite, React.js, TailwindCss, TypeScript, Redux, React Query*

CodeTalk is a social platform designed for developers to connect and engage with each other.

- **User Registration:** Create an account to access CodeTalk's features and join the developer community.
- **Live Chat:** Engage in real-time conversations with other users through live chat functionality.
- **Post Creation:** Share thoughts, questions, and updates by creating posts within the platform.
- **Editing Posts:** Modify and refine your posts after publication to ensure accuracy and clarity.
- **Post Deletion:** Remove posts from your profile as needed, providing control over your content.
- **Connecting with Others:** Establish connections with fellow developers to expand your network and foster collaboration.
- **Liking and Commenting:** Interact with posts from other users by liking and leaving comments to show appreciation or offer feedback.
- **Profile Management:** Update your profile information and preferences to reflect your current status and interests.
- **Notifications:** Stay informed about interactions on your posts and connections' activities through timely notifications.

## EDUCATION

---

Lebanese International University, *Bachelor's in Computer Engineering* | 2018-2020

## SKILLS

---

### Soft Skills

Time-Management; Problem solving; Communication; Team Collaboration; Teamwork and Conflict Resolution; Leadership.

### Technical skills

JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, React.js, Node.js, Express.js, MongoDB, Mongoose, MySQL, Sequelize, JsonWebToken, Web Sockets, Git, GitHub, Redux, TypeScript, Appwrite, Firebase.

### Languages

Arabic (Native) | English (Fluent)
