Ali Saghir | Full-Stack Web Developer

Dubai, United Arab Emirates | +971 524301504 | alisaghir543@gmail.com | [LinkedIn](#) **|** [Github](#)

PROFILE

Full-Stack Web Developer specializing in the MERN Stack with expertise in building and maintaining dynamic, high-performance web applications. Experienced with MongoDB, MySQL, Express.js, React.js, Node.js, TypeScript, Redux, Firebase, AppWrite, and Next.js. Adept at both front-end and back-end development with a strong focus on delivering scalable and efficient solutions.

EXPERIENCE

Algedra | Dubai, UAE *(March 2024 – Present)*

- Developing and maintaining scalable web applications using the MERN stack and Next.js.
- Responsible for backend development, including the design, implementation, and optimization of RESTful APIs.
- Integrated third-party services and APIs for features like user authentication, payment processing, and push notifications.
- Conducted comprehensive API testing using Postman and other tools to ensure robustness and error-free communication between frontend and backend.
- Participated in code reviews, ensuring code quality, and enhancing the overall system architecture for scalability and performance.
- Collaborating closely with UI/UX designers to implement visually appealing and functional front-end solutions.
- Leading initiatives to improve the team's development processes, incorporating Agile methodologies, and ensuring timely deliveries.

Codi Tech| Lebanon *(August 2023 – February 2024)*

- Designed and implemented backend architecture with Node.js, Express.js, and MongoDB to support dynamic, data-driven web applications.
- Developed and tested RESTful APIs for seamless communication between the client-side and the server, ensuring high performance and security.
- Performed thorough API testing using Postman and integrated various API endpoints for user management, payment gateways, and real-time notifications.
- Developed frontend applications using React.js, TypeScript, and Redux, ensuring smooth user interfaces and optimal performance.
- Implemented database management solutions using MySQL and MongoDB, with a focus on ensuring data integrity, security, and scalability.
- Leveraged Git and GitHub for version control and collaborated with remote teams on codebases, enhancing team efficiency and project timelines.
- Integrated Firebase for real-time data syncing and notifications, enhancing the user experience in projects like **Silent Hikers** and **We Rise**.

[PORTFOLIO](#)

My portfolio showcases a diverse range of projects that demonstrate my expertise in full-stack web development. Some highlights include:

Projects:

- *Silent Hikers (MongoDB, Node.js, Express, React.js, Next.js)*
  A platform for event management, allowing users to register, view events, make reservations, and upload photos.
- *We Rise (MySQL, Node.js, Express, React.js, Bootstrap, Socket.IO)*
  A donation platform where users can create campaigns, donate, and receive real-time updates via Socket.IO.
- *Rayn-Look (MongoDB, Node.js, Express, React.js, Bootstrap, TypeScript, Redux, Next.js)*
  An e-commerce website with product listings, shopping cart features, and customer support.
- *CodeTalk (AppWrite, React.js, Tailwind CSS, TypeScript, Redux, React Query)*
  A social platform that enables users to register, create posts, interact with others, and manage their profiles.
- *Hi5 Properties (MERN Stack, Next.js, 4 Subdomains)*
  A real estate platform for browsing properties, contacting agents, and managing listings. Created with 4 subdomains for different sections of the website.
- *Meat Moot (MERN Stack, Next.js, Real-time features, Multilingual Support - Arabic, English, Russian)*
  A restaurant website with advanced booking, menu browsing, live customer support features, and multilingual support in Arabic, English, and Russian.

EDUCATION

Lebanese International University, ***Bachelor's in Computer Engineering*** | 2018-2020

SKILLS

Soft Skills

Time-Management, Problem solving, Communication, Team Collaboration, Leadership.

Technical skills

JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, React.js, Node.js, Express.js, MongoDB, Mongoose, MySQL, Sequelize, JsonWebToken, Web Sockets, Git, GitHub, Redux, TypeScript, Appwrite, Firebase, **Next.js**.

CERTIFICATES

- Responsive Web Design | FreeCodeCamp
- The Ultimate 2024 FullStack Web Development Bootcamp | Udemy
- Full Stack Web Developer | Codi-Tech
